"Where Quality and Price Meet"

Phone 36

Premier Brownlee, accompanied by Hon. R. G. Reid, Provincial Treasurer, will attend a conference to be held in Ottawa on December 12th when further consideration will be given to the question of the natural resources of this province.

The hope is expressed by the Premier that as a result of the discussion at this meeting, an arrangement may be arrived at for the transfer of the natural resources to Alberta.

## Rosebud Hockey League Formed

A well represented gathering of delegates of the Rosebud League was held at Olds on Monday, November 26th, to elect the executive committee for the coming season and to adjust the rules and schedules.

The following officers were elected: J. B. McLaren of Bowden, President; F. Kirkham, Innisfail, C. Cook, Didsbury, J. Ure, Carstairs, S. Reiber, Olds, A. A. Prout, Bowden and J. Hunter, Olds School of Agriculture, as Vice-Presidents. A. L. Harvey of Olds agreed to continue as Secretary.

Following the election of officers several problems came up for de-

There will be no dance at Rugby on Dec. 7th, as previously announced. Watch for future notice.

The annual meeting of the Didsbury Agricultural Society will be held in Berscht's Hall, Friday, Dec. 7th, at 2 p.m. All members are requested to be present. 49

The Women's Guild of St. Cyprian's Church will hold their Annual Bazaar in the Opera House on Saturday, Dec. 8th, opening at 2 o'clock. There will be a splendid display of hand work, suitable for Xmas presents, also home cooking, candy, etc. Lunch will be served from 3 to 6 p.m. 48-3c

Christmas Tree and Dance in Davenport School on December 20. Everybody welcome. 49-3p

A Christmas entertainment will be held at the Clovermount School, Friday, Dec. 21st. 49

## ALBERTA ENTRIES WIN AT TORONTO ROYAL

Attention has again been attracted to Alberta as the result of the high awards secured at the Toronto Royal Agricultural Fair by entries in both grain and livestock classes exhibited from this province. Herman Trelle of Wembley, who has four International Championships to his credit, has won first prize and championship in wheat and similar awards in field peas in competition with entries from all parts of the Dominion. Seventh prize in the spring wheat class was won by Robert Cochrane of Grande Prairie and tenth by P. J. Rock of Morrin. In the oats class, Mr. Trelle carried off second prize, Nels Linden of Wetaskiwin third, J. H. B. Smith of Wolf Creek fourth, Hans Mayer of Vegreville seventh and P. J. Rock eleventh. Second prize in field peas comes to Percy Clubine of Wembley and fourth prize in barley to Norman Pack of Leduc.

Alberta livestock entries have also made a creditable showing in the

## You Can't Get In On This!

Messrs Geo. Smith and Ellis Barnes who have spent the past two weeks in the northern part of the province hunting big game returned home Tuesday evening with a bear and a moose. George brought down the bear and Ellis the moose.

### WORLD HAPPENINGS BRIEFLY TOLD

Plans are being made for construction next spring of an airport at Chicoutimi, Que., for land and seaplanes.

The financial collapse of Russia is imminent, according to a ministerial statement in the British House of Commons.

A tri-city air service between Seattle, Victoria and Vancouver and a service between Seattle and Alaska will be started next April by the Union Air Lines.

By the end of this year it is expected that the British Columbia government will have prepared for Lord Lovat a settler scheme, Premier Tolmie says.

The Graf Zeppelin will make no second trip to America this year. The Zeppelin works in announcing this, said that the necessary supply of gas was not available.

Major Yochio Inouye, counsellor at the Japanese embassy at Buenos Aires, who was drowned in the sinking of the Vestris, has been posthumously promoted to lieutenant-colonel.

The Canadian Memorial Chapel, a sanctuary in memory and in honor of the seventy thousand Canadians killed in the war, and erected in Vancouver through the efforts of Lieut. Colonel the Rev. G. O. Fallis, B.D., C.B.E., has been opened there.

**It Will Relieve a Cold.**—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Eclectric Oil will relieve the bronchial passage of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and prove it.

#### Early Use Of Wood-Pulp

Paper was first made in Canada about 100 years ago, but prior to 1860 no wood-pulp was used in its manufacture, rags being the chief raw-material.

#### Minard's Liniment for Chapped Hands.

British scientist says he has discovered that what goes up need not necessarily come down. Old stuff. Did he never hear of the cost of living?

### Short of Breath Smothering Feelings Choking Sensation

Mrs. H. Day, Dartmouth, N.S., writes:—"For over a year I was troubled with smothering spells and shortness of breath, and it was impossible for me to walk, even a short distance, because of the choking sensation which followed.

After trying many treatments, in vain, I at last decided to try

and in a surprisingly short time they did me much good.

### Branch Line Construction

More Than 330 Miles Of New Lines and 71 New Stations Built By C.P.R. In Past Season

The building of more than 330 miles of new branch lines, with 71 new stations and shipping points sums up in brief the construction programme of the Canadian Pacific Railway in Western Canada during the past summer, according to D. C. Coleman, Vice-President, Western Lines. By this means hundreds of farmers had been brought much closer to transportation facilities, and thousands of acres of rich agricultural land had been made much more attractive from the settlers viewpoint. The construction programme has gone forward rapidly, and as a consequence a considerable amount of this year's crop is being marketed over the new trackage, Mr. Coleman pointed out. A feature of the branch line construction was found in the rapidity with which settlement followed the laying of the steel. Country elevators to the number of approximately 300 were already built or in the course of construction, while in many cases towns were beginning to spring up around the newly erected station buildings.

### Windolite

Improved Glass Substitute Is Now Available In Canada

"WINDOLITE"—the English unbreakable improved glass substitute, which is now so popular in the British Isles, is being marketed in Canada by John A. Chantler & Co., Limited, 49 Wellington St. West, Toronto, Ontario.

Severest tests carried out in England, showed that "Windolite" is remarkable, not only for its unbreakable qualities and ultraviolet ray penetration, but it was found that "Windolite" will stand up under usage that would wreck many other glass substitutes.

The fact that "Windolite" is translucent and allows 100 per cent. sunlight with the life-giving ultra-violet ray to enter, opens a wide scope of practical uses, the importance of which will at once suggest themselves.

Windolite consists of transparent solution, reinforced with fine specially galvanized wire mesh, which results in a substance that is completely waterproof, airtight, and dust-proof. It is flexible and unbreakable, and may be readily cut with the ordinary pair of scissors, to any required size. It therefore, forms a practical substitute for glass, and where transmission of ultra-violet radiation is required to promote health and growth, it is ideal. These beneficial rays are vital to young chicks, laying hens, dairy herds, and live stock, and also is economical for sunrooms, nurseries, verandahs, hospitals, schools, and for hot beds and plant coverings. It is light but strong.

Quoting from some British authorities, they have the following to say of "Windolite"—A well-known poultry breeder, member of S.P.B.A., N.U.P.S., and National Farmers' Union, whose farm is a Certified Breeding Station, under the Ministry of Agriculture and Fisheries, says of Windolite: "I have proved to my satisfaction the benefits obtained from the use of Windolite in my brooder house. I replaced the ordinary glass on one side only with your substitute, and although it has been in use only a matter of a week or ten days, the results are very marked. The chicks on this side are doing very much better than those of the other. I have kept both sides indoors for the purpose of noting the results."

"British Medical Journal," April, 1925:—"Windolite has been used by poultry keepers and market gardeners as a substitute for glass, but it is now suggested that as it allows ultra-violet rays to pass much more freely than ordinary glass, it may be of use in medicine. It has been examined for us and it is found that as claimed, it lets the ultra-violet rays through freely."

Bishop's Castle, Shropshire:—"I shall be pleased if you will send me as quickly as possible—I have had a frame in use for nearly three years, and it has proved very satisfactory."

(Signed) C.W.D. This effective glass substitute will no doubt become very popular with stock breeders, dairy men and poultry breeders. It should also be a boon to mining camps and prospectors who cannot pack glass successfully over rough trails without breakage. It will stand up under rough treatment, and has the added advantage of being flexible.

Corns disappear when treated with Holloway's Corn Remover without leaving a scar.

#### Milk For Dairy Factories

The approximate amount of milk required to supply dairy factories in Canada during 1926, based on the quantity of milk delivered and the equivalent in milk of the butter fat content of the cream delivered, was 7,118,940,782 pounds.

Minard's Liniment for Asthma.

### THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

### Scott's Emulsion

is the easy and pleasant way to exact the most out of cod-liver oil to reinforce your body with strength to build resistance.

Scott & Bowne, Toronto, Ont. 25-38

### Consolidated Wheat Pools

Have Marketed Huge Amount Of Grain During First Five Year Record

During the first five-year period the consolidated pools of the three western provinces have marketed approximately 750,000,000 bushels of grain, coarse grains included, with a total turnover in money exceeding \$1,100,000,000. During that time the three pools have accumulated through elevator deductions and commercial reserves, which belong to the grower, over \$20,000,000.

### WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe. In fact they are like having a doctor in the house. They are a gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all harmful to even the youngest babe. They cannot possibly do harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Volcanic Dust

Volcanic dust found in Saskatchewan and British Columbia is used for purposes similar to ground pumice, particularly in the manufacture of cleansers and scouring powders, and in some instances as a substitute for fuller's earth in the refining of hard oils and fats.

### SUNDAY SCHOOL LESSON

DECEMBER 2

#### PAUL BEFORE HIS JUDGES

Golden Text: "I was not disobedient unto the heavenly vision."—Acts 26, 19.

Lesson: Acts 24.1-26.32.

Devotional Reading: Psalm 25.1-6.

#### Explanations and Comments

Paul Before Felix and Drusilla, 24. 24-26.—Some days later, Felix sent for Paul that he and Drusilla might hear him in regard to his faith in Jesus Christ. Drusilla was a Jewess, the daughter of Herod Agrippa I. (whose death is narrated in Acts 12. 20-23).

Paul talked about matters pertinent to the conduct of Felix; righteousness—"Felix supposed he might perjure with impunity any kind of villainy," said Tacitus—self-control—Felix had induced Drusilla to leave her husband and live with him; and the judgment to come—Felix had murdered Jonathan, the high priest, and had committed many other sins. Paul talked so effectively that Felix trembled. Compare John the Baptist's talk with Herod, Mark 6.14-20.

"Fear is not faith, but it may lead to faith, or it may lead to hardening."—Alexander MacLaren.

Although Felix trembled, his only answer to Paul was, "Go thy way for this time; and when I have a convenient season I will call thee unto me." "Felix doesn't think that he is deciding the question that Paul has raised. He thinks that he has postponed the decision, but he hasn't. For indecisive procrastination is one of the most conclusive methods of decision that mankind knows. Life's processes do not call a halt simply because we have not made up our minds. If you have a garden-plot you may suppose that you have three choices; either to have flowers, or to have weeds, or to be hesitant, uncertain, undecided. But in fact you have only two choices. If you choose flowers, you may have them; but if you decide to be indecisive, nature will decide for you—you will have weeds. The processes of God's eternal universe do not stop to wait for us to make up our minds. To make flowers grow means positive decision. And to become a Christian requires positive decision. You must make up your mind to it. And if any Felix endeavors to be indecisive, he is not really indecisive. His life processes still go on without Christ because he has not positively decided for Christ."—H. E. Fosdick.

**Cuts and Bruises Disappear.**—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Eclectric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Eclectric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

Canada ranks third in importance, as a source of metals of the platinum group, after Russia and Colombia.

## Are You Ready

### When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

### Dairy Industry Flourishing

Outlook Never Appeared Brighter Than At The Present Time

"The outlook of the dairy industry in Canada never appeared brighter," says Dr. J. A. Ruddick, commissioner of the dairy and cold storage branch of the Department of Agriculture. "The value of our dairy production this year will be around \$265,000,000. We have approximately 3,800,000 milch cows in Canada. They are in every province although Ontario and Quebec have the most. While the cheese production is not a record one this year, it is very high. About 100,000 boxes more will be exported in 1926 than in 1927. Canada produced the most milk in its history this year.

To avoid the run-down feeling approach crossings carefully.

## WINDOLITE

### The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of ordinary glass, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Use WINDOLITE and let

### CHAPTER VII.—Continued.

He was known under several sobriquets: "Trapper" John, "Coffee" John, and "Mahogany" John. "Coffee" John for the excellence of his brew of that beverage, and of which he drank enormous quantities. His call to meals: "Come and throw your feet under the mahogany," supplied the reason for the cognomen of "Mahogany" John.

With the assistance of their host they unsaddled the tired horses and turned them in the pasture, where they rolled luxuriously on their backs for a moment, and then started feeding hungrily on the rich clover.

A wind shook the tree-tops and turned the surface of the lake dark with ripples. High in air, streaming dark clouds scudded swiftly by.

"Got here jest in time," said the old trapper, as he looked up at the sky. "It's a goin' to rain. Come inside."

John had served as cook in a cowboy camp in Texas. He never overlooked an opportunity to make ostentatious display of his skill in the culinary art.

"Jest set my bread this mornin'," he explained, "so I'll hev' ter make a bannock."

Taking a tin pan from the shelf, he threw it the full length of the room to the table. He tossed the cooking utensils about like a practised juggler. Soon the bannock swelled to the rim of the frying-pan, the edges showing brown and crisp. He lifted the heavy dish from the stove, and with a dexterous twist of his wrist threw the bannock to the ceiling and caught it nearly in the centre of the pan as it came down. He dipped a half dozen trout in the yolk of eggs, rolled them in flour, then tossed them with apparent carelessness, but with deadly aim, one at a time, to the

sizzling pan. From a shelf he took two glass jars and turned their contents into an earthenware dish on the stove. Immediately the room was filled with an aroma that caused the newcomers to sniff hungrily.

"Mr. Hillier," began Andy, "what

"Mr. Hillier! Hell! My name's John," exploded the trapper.

"I was goin' to ask you what kind of meat that is that smells so good," grinned Andy.

"Muskrat."

"What?"

"Muskrat," repeated their host, turning to the astonished Australian.

"Did ye ever eat any?"

"No," returned Andy weakly, "I don't care much for meat anyway."

"They're darn good eatin'," affirmed the trapper. "Reason folks won't try 'em is because they think that they are a rat. Their right name is musquash, and they live on vegetable food only. Did any of you fellows ever see 'Diamond Back Terrapin' on a bill-of-fare in restaurants?"

"I have, many times," answered Donald.

"Well, 'bout half the time when the waiter hands ye what ye think is turtle he's givin' you musquash," stated the trapper as he speared a cube of butter with a long fork and shot it accurately to the debated dish.

Andy laughed outright. "Strike me fair, John, you've got anythin' I ever see beat a block for slingin' grub."

John was pleased. "Oh, I'm fair to middlin' good," he admitted.

John served the dinner in the pots and pans in which the food had been cooked, and piled the table with enough grub to serve a dozen men. "Like to see lots of grub in sight," smiled the old trapper. He placed a big steaming coffee-pot in the centre of the table, and then sent out his original dinner-call. "Throw your feet under the mahogany—" he roared.

The party needed no second call. The mountain air had given them wolfish appetites and they made huge inroads on the trapper's well-cooked dinner. With the exception of Andy, they ate and enjoyed musquash; the meat being fine-grained and tender. John was visibly disappointed by Andy's refusal to try this delicacy.

"Try it, ol' timer," he insisted, as he pushed the steaming pan across the table.

Andy made a wry face. "Don't feel jest hungry tonight," he mumbled.

Dinner finished, Donald pushed back his chair and lighted a cigarette. "John, that was a dandy meal, and your coffee sure is a nectar fit for the gods."

The trapper was justly proud of his cooking. Donald's praise brought a deeper tinge of colour to his bronzed face. He refilled the tin cups and they sat quietly smoking and sipping the fragrant coffee.

After the day in the open and the excellent meal it was pleasant to sit in the genial warmth of the cabin while the storm which had been gathering broke overhead and the incessant patter of rain sounded on the roof.

Between Andy and John there sprang up a comradeship based on the peculiar brotherhood which often exists between small men. Each found in the other traits that amused him.

"Comical little duck," was John's opinion of Andy.

"Strike me pink! He's the funniest old geezer that I ever saw in me life," Andy confided to Donald.

Together they washed the dishes and tidied up the room. When they had finished Andy dragged in his duffle-bag, rummaged through the contents, and produced a flask of rum. The trapper's face brightened.

"I brought this for medicinal purposes," stated Andy. "How are you feelin', John?"

The mirth wrinkles around the trapper's eyes deepened. "My misery is purty bad to-night, ol' timer."

Andy poured liberally into a tin cup. The pungent odour of rum filled the room. Old John sniffed the contents. "Whuff!" he yowled, "good lickin'!"

The old trapper, standing in the centre of the room, presented a figure wild and strange. His coat of buckskin was open at the throat to expose a hairy chest. His mane-like mass of wiry hair stood straight out and shook with every movement of his body. A veritable wild man of the woods he looked as he grasped the

cup and held it up to his admiring gaze.

The storm had reached the height of its fury. The wind roared and moaned like a famished wild thing denied its kill. Occasionally a venturesome gust would find its way down the chimney to send thin puffs of smoke to linger in the air and fill the cabin with the sweet perfume of the burning alder.

"Give us a toast, John," begged Andy.

The trapper raised his cup on high:

"I'm the trapper of the mount'n top,  
A ring-tail-snorter an' a dead-sure shot.

I'm wild, I'm woolly an' full o' fleas,  
I've never bin' curried below the knees,  
I live on the fruit o' the prickly pear,  
An' I play in the brush with the grizzly bear."

"Here's hopin' ye'll never see the back o' yer neck," he added. Then placing the cup to his lips he drained the contents with one great gulp. John's jaws were well-nigh toothless, and as the fiery liquor scorched his throat his leathery cheeks folded and unfolded like the pleats of an accordion.

"Wow!" he yelped, "she's sure got a kick."

The humorous toast and the trapper's facial contortions sent Andy into paroxysms of laughter.

"Strike me blind!" he gasped, as he held his sides. "I never—" His eyes rested again on the trapper's convulsed features. Speech failed him and he sank writhing to a chair.

When finally they climbed the ladder to their bunks the rain had ceased and a brilliant moon flooded the valley with a white light.

Donald awakened as the first grey streaks of dawn brightened the dusky windows of the loft. The air suddenly filled with the sweet song of birds. Wild-fowl quacked and splashed in the waters of the lake. The aroma of coffee and frying bacon and the pungent odour of wood smoke was wafted strongly from below.

Suddenly the trapper's shaggy head protruded through the opening at the top of the ladder. "Get out o' the hay an' let the sun shine on ye!" he boomed.

"Now, let's get busy," said Gillis, when breakfast was over. "The first thing to do is to find a good spot to pitch our tent."

"You'll find a deserted cabin at t'other end o' the lake that'll be a whole lot more comfortable nor a tent," informed the trapper.

The cabin of cedar logs proved to be in good repair and the location excellent.

"A couple of days' work," observed Gillis, "an' I can fix her up so's we'll be as snug as a bug in a rug."

John had spent the forenoon in baking. Cakes, pies, doughnuts and cookies were placed at regular intervals on the shelves in platters and tins tipped at an angle to make the display more effective. It was an exhibit of pastry that any housewife might envy. The unstinted praise of his guests was like music to the trapper's ears.

For dessert they had a savoury mince-pie, steaming hot from the oven. Andy waxed most eloquent in his praise of this culinary delight.

"Have another piece, ol' timer," insisted John, as he transferred a big slice to his plate.

"Like it, do ye?" asked John.

"U-m-m," mumbled Andy as he devoured the last crumb and settled back with a sigh of content.

John's wrinkled old face spread into a wide grin. From his lips came a cackling laugh.

"What's the joke?" queried Andy.

"I thought I'd get that muskrat into ye somehow," chortled the trapper.

"Well, it's not so durned bad, after all," philosophized Andy.

On the third day after their arrival they moved to the cabin at the

head of the lake. There followed days of arduous toil, days spent in "blazing" lines through almost impassable swales, up steep hillsides and through canyons. Days of strenuous exercise in the stimulating air, when the bright sunshine tanned their faces to a deep brown, brought the glow of perfect health to their eyes, and gave to their muscles the resiliency and strength of steel springs.

(To Be Continued.)

### Little Helps For This Week

"According to the eternal purpose."—Ephesians iii. 11.

One small life in God's great plan, How futile it seems as the ages roll! Do what it may, or strive how it can, To alter the sweep of the infinite whole;

A single stitch in an endless web, A drop in the ocean's flow and ebb. But the pattern is rent where the stitch is lost, Or marred where the tangled threads have crossed.

And each life that falls of its true intent Mars the perfect plan that its Master meant.

—Susan Coolidge.

Remember that you are an actor of just such a part as is assigned you by the poet of the play; of a short part, if the part be short; of a long part, if the part be long. Should he wish you to act the part of a beggar, take care to act it naturally and nobly; and the same if it be the part of a lame man or a ruler. For this is in your power, to act well the part assigned to you; but to choose that part is the function of another.

—Epictetus.

### Characteristic Of Japan

Everything About Country and People Is Small But Not Weak

Perhaps the first impression on landing in Japan is the littleness of everything. The little flimsy houses, the little flimsy shops, the small men, the toy-like women, the tiny children, as numerous and like unto each other as the sands on the shore—these are everywhere. But although very small of stature the Japanese men are often very powerfully built, and many of them suggest great strength.

Littleness—with which is associated the most delicate detail and elaborate finish—is the mark also of the modern Japanese art. In the curiosity shops whatever was massive or largely simple was Chinese. Even the Royal Palaces at Kyoto are small, the rooms, exquisite as they are, with perfect joinery and ancient paintings, being seldom more than a few feet square, with very low ceilings.

A child's amusement now costs more than did his daddy's education.

### Letters Raced Around World

Winner Made Entire Trip In Seventy-Eight Days

People are growing so accustomed now to flyers going east and west, men and women crossing continents and oceans, that nothing which touches on flying can surprise one very greatly. But it is interesting to know that lately two letters have been racing round the world by established air, water and rail mail routes.

The letter which won, the first letter to go all the way round the world in the open mails, finished at Seattle, United States, in 78 days, 1 hour, and 30 minutes.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

### Northern Alberta Fish

During the quarter year ending September 30th, American firms purchased 1,685,222 pounds of northern Alberta fish, valued at \$193,918, as compared with 1,508,328 pounds during the same period of 1927.

### Winter Sports

Winter sportsmen find Minard's ideal for taking the soreness out of bruised muscles. Try a bottle.

## "PINKHAM'S COMPOUND IS WONDERFUL"

Read This Letter from a Grateful Woman

Vanessa, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—MRS. MILTON McMULLEN, Vanessa, Ontario.

**So Many Home Uses!**

Keep foods fresh longer by covering them with Para-Sani

Use Para-Sani to keep Dad's lunch tastily fresh

Keep the freshness in sandwiches prepared for the party with a covering of Para-Sani.

**YOU'LL FIND A Hundred vital, saving uses for Para-Sani Heavy Waxed Paper in your home. Comes in handy, sanitary, knife-edged package. For less exacting uses: "Centre Pull" Waxed Tissue (flat sheets). At grocers, druggists, stationers.**

**THE FOUR-SQUARE LIFE**

Man is entitled to a four-square life. The flabby, ill-nourished, poverty-ridden, sickly sort of existence that many live is not a part of the divine scheme of things. Health, wealth, love, and self-expression are man's heritage. A heritage is a rightful possession, something that comes to us as a matter of right. It has been willed to us and therefore it is ours.

God created man perfect. In the perfect man there is no place for disease. Rather should it be said, there is no disease in the perfect man. We should form the habit of seeing ourselves as perfect, then we would be free from disease. Thousands have demonstrated this. A man was refused life insurance two and a half years ago, but recently passed a medical examination and was accepted without any extra premium or lien, accepted as normally healthy. That man saw himself as perfect and has won through to health by simply claiming health as his right.

Two years ago a Canadian man and wife lived in one room and, more than once, a two dollar bill was all the wife had for her Saturday's marketing. Today, he is at the head of a thriving business, in which he is a partner. He refused to see himself as poor, but claimed what belonged to him in this world of abundance and he has received, and is receiving, his share. And it is there for everybody in like manner. He had rich ideas and they worked.

It is the same with love. Love is our portion in the land of the living, but we must give forth love as well as expect it. And this leads to self-expression. The diviner powers in our lives are part of the plan for us. We are endowed with health, wealth and love that we may reach a glorious height of self-expression, expressing only the best because we have realized and possess the best. That four-fold life is worth reaching after, for what is better than health, wealth, love and self-expression?

**APPROACHING**

Less than four weeks remain until Christmas, and Didsbury stores and store windows are beginning to reflect the spirit of the holiday season so rapidly approaching. Everyone of these give a hint at the important business from which no one is barred, and in which sooner or later everybody will be engaged.

Every year more sensible persons do their Christmas shopping early. They reap all the advantages in variety of selection and leisure of choice and when Christmas comes they proceed about their last minute holiday tasks without the worry and mental upsets of the procrastinator.

Look over the advertisements, they contain many suggestions which will help solve the Christmas shopping problem.

**THE NATURAL FOOD**

A committee of the Scottish Board of Health has recently conducted a seven month feeding test of school children from five to fourteen years of age. The children received little or no milk at home. At school one group was fed biscuits advertised as having all the food qualities of milk, one whole milk and another separated milk. The addition of milk to the diet was accompanied by "a rate of growth as indicated by an increase in both height and weight 20 per cent. greater than that in children not receiving the extra milk. This increase in rate of growth was accompanied

**LOCAL & GENERAL**

Mr. Bill Teskey of Calgary visited his parents over the week end.

Mr. Elmer Cowitz was a visitor to Calgary on Monday.

Clint Reiber was a business visitor to Calgary on Monday.

Mr. E. G. Ranton was a business visitor to the southern city last week.

Messrs Ivan and Wilmer Sutherland were visitors to Edmonton over the week end.

Messrs Jack Fleury and Jim Caithness bagged a nice moose last week.

Mr. J. V. Berscht was a visitor to the city of the foothills Friday last.

Mrs. M. A. Robertson of Olds was a visitor on Monday at the home of Mr. and Mrs. W. A. Teskey.

Snell & Carter, Registered Optometrists, Red Deer, will be in their office over the Royal Bank on Monday, December 3rd. 48-2c

Mr. and Mrs. Frank Mertenens motored to Strathmore over the week end visiting at the home of the latter's parents.

**Don't forget Chautauqua Saturday, Monday, Tuesday and Wednesday, starting December 1st. Six programs of big class entertainment.**

Personal Greeting Cards are the best Christmas tokens that you can send. Buy them at the Pioneer Office.

Twenty members of the Mountain View Lodge, Olds, paid a friendly visit to the local King Hiram Lodge Tuesday night.

Mr. W. J. Cathrow of the Royal Bank at Duchess is now on the staff of the local branch of the bank having been transferred from that point.

Mrs. H. W. Curry wishes to announce that she is now holding classes in pastel, basketry and plastic work, each Thursday above the Opera House. 48-2c

Scholars of Didsbury! Keep your school books for show purposes. Do your scratching on our cheap-big scratch pads, given away at 3 for a nickel at the Pioneer Office.

Rev. Geo. Wood of the Wood's Christian Home, Calgary, died in the Holy Cross Hospital, Calgary, on Tuesday evening, Nov. 27th, after an illness of five days.

The Family Herald and Weekly Star of Montreal with its wonderful improvements has no peer as an agricultural paper on this Continent. The best Canadian farmers know that.

by an improvement in the general condition of many of the children receiving milk. The separated milk was of great value in promoting growth. The biscuits produced results significantly worse in the five-year and thirteen-year-old children and no significant difference on growth of the eight-year-olds."

Milk is our best protective food, we need it. Children cannot develop properly and grow well without it. Whatever price is paid for it, milk is still the cheapest food for children, because it is the indispensable food for them, the one food they can thrive on and grow strong on.

Farmers have been known who sell all or nearly all their milk and cream to other people and let their own children go without. Ignorance and an improper sense of values deprive these children of the best and cheapest food, food that cannot be replaced by the largest helpings of pie or hash.

Milk is not only a food in itself, but is also a "protective" food because when eaten in conjunction with deficient foods causes the latter to be more valuable, as well as warding off certain diseases and promoting both mental and physical stamina.

Milk is a solid food, a growth producer. Clean, wholesome milk is the greatest factor of safety in the human diet. Give your child a chance to grow, give him a quart of milk every day.

For general health literature write to the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

**CHANGES ANNOUNCED IN FISHING REGULATIONS**

Closing the last link of the C.P.R. Cutknife-Whitford Lake line, construction of the 75-mile section from Willingdon to Edmonton was completed during the past week. Large quantities of grain have been stored in the elevators along this line and a heavy movement is expected when the road is opened for traffic. In all some 100 elevators have been constructed at the townsites along this new line to handle the grain production of the rich territory thus opened up.

**Burnside Notes**

There was a large crowd at the box social in the Lone Pine Hall on Friday last and bidding for the boxes was brisk, some of them going quite high. Bellamy's orchestra furnished the music for the dancing. Mr. Fred Metz was the capable floor manager.

Mr. and Mrs. Fred Thompson and family ate their Sunday dinner with Mr. and Mrs. Noah Eckel.

Mrs. Joe Clarke spent a few days in Calgary last week where she met her sister, Mrs. Mackie of Arrowood who sails shortly for a visit to her old home in Scotland.

Mr. A. A. Jenkins is now on the No. 14 telephone line, having had a phone put in this past week.

The ice on the Lyons lake has been in excellent shape the past two weeks and there has been a large crowd at the Wednesday evening skating parties.

Mr. and Mrs. Tom Finlay and family spent Sunday at the home of Mr. and Mrs. John Topley.

Mr. Nelson McLean, who has been visiting friends since coming from the hospital, returned on Sunday to his home here.

Mrs. Fred Thompson and Mrs. N. Eckel were visitors at Olds Saturday last.

The Junior U.F.A. will meet on Wednesday, Dec. 5th.

Burnside U.F.A. annual meeting will be held Monday evening, Dec. 10th in the Lone Pine Hall.

Mr. Clarence Stewart held an auction sale on Tuesday, Nov. 27th.

Don't forget the W.L. Leap Year Dance on Dec. 7th.

The annual meeting of the Lone Pine W.L. will be held in the Lone Pine Hall on Thursday, Dec. 13th. All the members are requested to attend as new officers are to be elected for the coming year.

### ITEMS OF INTEREST

The building total for Red Deer has reached the quarter million mark, according to the Red Deer Advocate. A fine new high school costing \$60,000, is almost completed, apart from numerous improvements and additions in the business and residential sections of the town. Both the C.N. and C.P. Railways have also made improvements in their yards, transfer tracks being laid and the latter building necessary stock yards.

As the result of an arrangement reached by the Department of Agriculture, the Attorney General's Dept and the Alberta Provincial Police, administration of The Game Act will be carried on as in the past by the Game Commissioner's Branch of the Department of Agriculture, and enforcement of the provisions of the Act will be placed in the hands of the police and the voluntary game guardians, of whom there are several hundred scattered throughout the province.

The services of H. L. Seymour, newly appointed town planning expert for the Provincial Government, have been requisitioned by the new town of Wallace, near Lethbridge. The townsite is located in the Lethbridge Northern Irrigation District where extensive developments are being carried on by the Mortimer Davis coal interests of Montreal, and plans are being made for the laying out of the town along approved lines.

Some 200 of the thousand head of buffalo in Elk Island Park, east of Edmonton, will be slaughtered during the month of December in order to keep the size of the herd within the carrying capacity of the park pasture. It is expected that most of the meat thus secured will be shipped north in the form of pemmican to provide food for the Eskimo inhabitants of the Northwest Territories as a result of the growing demand from this source following trial shipments made last year.

Alberta's 1928 wheat crop is placed at 147,566,000 bushels, or an average of 22 bushels per acre from the acreage sown in the province, in the crop estimate issued by the Dominion Bureau of Statistics during the past week. This figure compares with 171,286,000 bushels as shown in the final estimate of the 1927 crop. A considerable reduction from the earlier estimates of the yield in the western provinces has been made as a result of the frost injury to the crop. Alberta's average wheat yield compares very favorably with that for the whole Dominion which is placed at 20.8 bushels per acre.

### GLIMPSES FROM THE PAST

#### 20 YEARS AGO

Married — On Wed., Nov. 18, 1908, at the home of Mr. McCaig, his daughter, Mary Jane, to Mr. Henry Herman.

Councillors Smith and Shantz are the two candidates for the Mayor's chair in the town elections.

The school trustees went to school on Tuesday morning to test the teachers and pupils on fire drill. Two small buckets filled with hay were set fire to in the boiler room causing the stairways to be filled with smoke, after which the fire alarm was rung. 35 seconds elapsed before every student was out of the building.

#### 15 YEARS AGO

Knox Young People's Society was entertained at the home of Mrs. Moyle on Tuesday evening. About 40 were present and a very enjoyable evening was spent.

Miss Phemie McGhee was married to Mr. T. Staek at Calgary on Tues., Nov. 18, 1913.

Didsbury, along with other towns and cities in the province, will have to suffer from the withdrawal of the license fees, the provincial government now collecting same.

#### 10 YEARS AGO

Mr. W. S. Durrer and little son Alfred returned on Saturday last from Mildmay, Ont., where they have been visiting relatives and friends for the past seven weeks.

The Didsbury schools will open on Monday next.

### Church Announcements

#### Lutheran Church

Westcott 10.30 a.m., German.  
Didsbury 8.00 p.m., German.

Subject: The Coming of Christ and its influence upon the life of the Christian.

"Blessed are they that hear the Word of God and keep it."

#### United Church

Rev. A. E. Hayes, B.A., Minister.

Sunday, December 2

11 a.m. Knox Sunday School.  
Westcott 2.30 p.m.  
Knox Church, Didsbury, 7.30 p.m.

Theme: The Great Teacher.

The minister is looking forward to being in the pulpit again this Sunday evening.

#### Evangelical Notes

The monthly Christian Endeavor union meeting, including Westcott, Sunnyslope and other groups of young people, will be held next Sunday evening. A group of students from the Three Hills Bible School will furnish a program of addresses interspersed with vocal and instrumental music. The entire evening service will be given over to the young peoples' interests. Everybody is cordially invited.

There is urgent need for more hymn books in our church services at present. We recall an odd one being loaned out here and there for private use and their return may have been overlooked. Will everyone having borrowed a hymnal from the church please accept this gentle reminder and return same in the near future. The church needs them. Thanks.

#### Church of England

First Sunday in the month — Afternoon at 3.00 p.m.

Third Sunday in month — Morning at 11.00 a.m.

### WHEAT POOL NOTES

The Alberta Wheat Pool handled a total of 217,816,641 bushels of wheat during the first five year contract period with a gross turnover of \$276,350,411, according to the report of R. D. Purdy, manager, presented to the annual delegates' meeting being held in Calgary this week.

It was further stated that second series contracts covering 4,074,771 acres had been signed up at October 1st, 1928, which acreage is 2,226 greater than the sign-up of the first series contracts.

The average acreage per contract under the second series is 116 as compared to 93 acres under the first series.

During the past six months over 1200 contracts have been recorded

which is by far a greater number than during any similar period of the operation of the Wheat Pool.

During the crop year of 1927-28 the Alberta Pool handled 71,116,189 bushels of which 48,083,507 bu., or 67% were shipped to the Pacific coast and the balance east.

Administration costs during the past year were approx. 7-20 of a cent a bu.

The elevator and commercial reserve funds together now total \$5,400,000.

The records of these reserves are handled by the Growers' Department and in connection with this work 53,000 accounts of growers are involved.

During the past year 508,000 pieces of mail were handled, being an average of 1650 pieces for each working day.

## Did You Ever Stop to Think?

That the merchants who carry the best that can be procured, Advertise.

That if you want to buy from firms who appreciate your business, who render good service, who carry good merchandise, who are worthy of your business and your confidence, read the ads. You will find their names there.

That standard goods for every day use, goods whose quality does not change, will be found in the stores that advertise.

That experience has shown successful merchants that by truthful advertising they acquire both prestige and new business.

That their every effort is to make satisfied customers.

When a business man draws in his commercial shell he business stands still. He gets nowhere. Sooner or later he must wake up to the fact that if he wants his business to grow he must advertise. Advertise consistently.

### Modern Aladdin's Lamps

The average man and woman realizes that the world is making progress at an ever accelerated pace; that in the space of a few brief years greater improvements and more wonderful inventions are made to add to the comfort and pleasure of life than were recorded in many centuries of the past. There was a time when people received news of any great innovation with extreme scepticism, and ridiculed the idea of such things being possible. Today, the world is prepared to accept almost anything as possible.

However, it is the occurrence of some anniversary which actually forces upon us a realization of just how great and how rapid is the progress being made by the human race. Such an anniversary came last October when recognition was paid to Thomas A. Edison, in commemoration of the golden jubilee of what is generally accepted as being the greatest of his many great inventions, the incandescent electric lamp.

The tale of Aladdin and his wonderful lamp has delighted readers, youthful and adult, for many generations, but the accomplishments of man in the world of electricity following Edison's invention of his marvellous lamp, and the series of amazing inventions since then, and all more or less directly connected with Edison's discovery, in many respects surpass the most vivid imaginings of the Arabian Nights tale.

In this age of electricity, with our streets, homes and places of business lighted by the invisible current, our machinery operated by it, our homes heated by it, with every conceivable household device dependent upon it, with it as the agent to flash our news and messages around the world, and because of which we are enabled to talk under the oceans and through the air, it becomes well-nigh impossible to imagine a world lighted by the old kerosene lamp and tallow candle. Yet it is only fifty years since the world so labored in comparative darkness.

Had Edison, the wizard of Menlo Park, not succeeded in his effort to produce the incandescent lamp, would the world today enjoy all the pleasure and profit of the radio, which depends upon the use of the vacuum tube? Would the health giving rays of the quartz lamp be conferring benefits upon stricken humanity. No. To Thomas A. Edison the world is forever debtor for his great contribution to humanity's welfare and the world's wealth.

Fifty years! Not equal to the average span of a man's life. Yet Edison within that space of time has given us not only the incandescent lamp and all that has followed that initial invention, but to him belongs the credit of capturing the human voice upon a cylinder of wax, thus giving us the gramophone. It is thanks to Edison that we are able to produce pictures in which people move as they do in actual life, an invention that is profoundly affecting the life and thought of the world. And now we have the talking movies, the result of a combination of two of Edison's original inventions.

Within an even shorter space of time the automobile has not only been brought to its present state of efficiency and power, but it has been adopted all over the world, completely revolutionizing our manner of living and our mode of travel, and enormously broadening our knowledge of the world in which we live. Within the short space of a decade we have witnessed the airplane take its place as an accepted instrument in our modern life, and even on these Western prairies it is now a daily commonplace to witness these new messengers winging their speedy way from city to city carrying passengers, mail and express.

Science and invention is thus conferring upon this generation new wonders and new facilities of power, greater opportunities for pleasure and profit, or, ill-used, greater possibilities for catastrophe. With all the powers now being placed so rapidly under his control, man must continue to mount higher in intelligence and in all those moral attributes which alone will make him fully capable of rightly using the great possessions entrusted to him, and the number and variety of which increases almost hourly. For it must be remembered that in the final analysis the use or abuse, the deriving of good or the suffering of evil, arising out of these wonderful scientific achievements, depends upon man himself and the attitude he takes towards life and all its realities and possibilities.

#### Trees Used in Making Paper

Spruce, balsam, hemlock, and poplar together made up over 97 per cent. of the total wood used by the pulp and paper industry in Canada in 1926.

More than 1,000,000 bags of coffee will be raised in Venezuela this year.

Several coal mines in Ireland are being abandoned.

#### Woollen Mill For B.C.

British interests have recently established a plant for the manufacture of worsteds at Victoria, British Columbia. This plant has 6,400 spindles and promises to prove an important industry for the capital of British Columbia.

In England 2,500 automobiles are being delivered to new owners every week.

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### In Memory Of Colonel McCrae

Oak Tree From Georgia Planted On McGill College Campus

During Armistice Day a two-year-old oak tree was planted on the McGill campus, at Montreal, in memory of Col. John McCrae, author of "In Flanders' Fields." The tree was sent by the State Teachers College, of the University of Georgia, on whose campus a similar planting took place at the same hour. It is noteworthy that the best known and most beautiful poem, inspired by the Great War, should have been written by a Canadian, and the action of the Georgia College is also a friendly gesture which will be much appreciated on this side of the border.

### RHEUMATIC VICTIMS

Can Find Relief Through Building Up the Blood

Pain is the symptom of rheumatism that every victim recognizes, and he generally attributes the trouble to cold, damp or changeable weather. But doctors know that thin blood is a marked characteristic of the trouble. Trying to cure rheumatism while the blood remains thin and poor, is an impossible task because there is nothing to build on. A tonic like Dr. Williams' Pink Pills that enriches the blood and frees it from poisonous impurities soon banishes rheumatism from the system. So long as the blood is maintained in a healthy condition the trouble will not return. This is not theory. It has been proved in hundreds of cases; here is one:—Mr. J. W. Rose, R.R. 2, Albany, P.E.I., says:—"For some years I was a great sufferer from rheumatism and although I tried a great many remedies, I did not get any permanent relief until after I took Dr. Williams' Pink Pills. The trouble was located mostly in my shoulders, and at times was so bad that my right arm was almost useless. Of course I suffered much pain and great inconvenience. My attention was directed to Dr. Williams' Pink Pills through an advertisement in our newspaper, and I decided to try them. I took the pills according to directions with the result that the rheumatism has left me, and I have never had a twinge of it since. If this meets the eye of any rheumatic sufferer my advice is try Dr. Williams' Pink Pills at once."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Our Great Agricultural Wealth

Canada the Best Country in the World For Farming

"I can say without any hesitation, that Canada is the best country in the world for farming at the present time. It has greater possibilities, and there are indications that there is greater stability and prosperity than can be found in any other country," said Dr. E. S. Archibald, director in charge of the Dominion Experimental Farm at Ottawa, addressing the Young Men's Canadian Club at Montreal. Dr. Archibald said the crops in Canada are worth \$1,167,000,000, which alone was equal to the fisheries mines and forests all put together; dairy produce reached \$300,000,000 which was equal to the total of the fisheries and mines; wheat exports \$422,000,000, or a third of the country's total exports and that there were over 225,000,000 acres capable of producing, but not occupied. He estimated the Dominion's agricultural wealth at \$7,820,000,000, and that at least \$3,800,000,000 of capital was invested in agriculture.

#### The Only Alternative

After walking out with Jean for some months Sandy ventured to propose to her, and was accepted. Questioned by his prospective mother-in-law whether he was in a position to keep a wife, Sandy confidently replied in the affirmative, placing the matter beyond all doubt by volunteering this information: "There's hardly a morn' in' but what I leave some o' ma parritch; in fact, if I dinna get a wife sune I maun get anither pig."

#### Need Standard Grain Crop

Hon. W. R. Motherwell, Minister of Agriculture, addressing the Canadian Club of Fort William, stressed the need of western farmers raising the standard of grain which they produce, and reducing the varieties of wheat from 30 or 40 now grown to three or four kinds, which should be regarded as standard and be the only kinds admitted to No. 1 grade.

#### Minard's Liniment for Grippe.

W. N. U. 1761

## The Right Soap For Baby's Skin

In the care of baby's tender skin Cuticura Soap is the mother's favorite. Not only is it unrivaled in purity and refreshing fragrance but its gentle emollient properties are usually sufficient to allay minor irritations and promote skin health.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c, Ointment 25 and 50c, Talcum 25c. Cuticura Shaving Stick 25c.

### South Africa Buying Certified Seed Potatoes

Varieties Sent From Canada Last Year Gave Good Results

Trade with South Africa in certified seed potatoes from Canada is being promoted—another tribute to the excellence of our spuds.

Last spring small quantities of Irish Cobbler, Green Mountain and Dooley varieties were shipped to South Africa from Eastern Canada. They arrived in Capetown in excellent condition and gave good results there.

The South African growers preferred Dooley as more suitable to their special requirements. This season they are testing, at their own request, other varieties—small sized seed, of two to three ounces, from certified crops.

The British Columbia inspector is obtaining for this purpose quantities of two to three ounce seed of the following varieties:—Up-to-date, Sir Walter Raleigh, Burbank and Epicure. As there was no crop of certified Epicure in British Columbia this season Wisconsin Pride and Bliss Triumph were substituted for that variety. Results in South Africa from this British Columbia certified seed will be closely watched and may lead to the development of a worthwhile trade.

**Long Standing Asthma.** Many have suffered so long from asthma and have tried so many so-called remedies they think that there is no real help for them. They should read the letters received by the manufacturers of Dr. J. D. Kellogg's Asthma Remedy from hundreds of cases once as desperate as their own. Even in long-neglected cases this famous preparation brings prompt help.

#### Aviation in Canada

Aviation is in a healthier condition in Canada than at any previous time in its history. Development has not been rapid nor has it been forced into uneconomical channels. Every effort has been made to keep it on sound lines, as far as possible self-sustaining, and of direct value to the country as a whole.

### All-Red Air Route

Important Developments in Inter-Empire Communications Expected Soon

An all-red air route around the world is seen as a strong possibility in the near future by J. A. Wilson, controller of civil aviation, who recently returned from a sojourn of two months in the British Isles and Europe. "Enormous developments in inter-Empire communication may be expected within the next few years," Mr. Wilson said. "While efforts so far have been to some extent concentrated on flights to India and Africa, the eyes of British flyers are turning towards Canada." The R-100 and R-101 will shortly be ready for their trial trips, and in the early spring would be ready for trans-Atlantic trips to Montreal. Mr. Wilson viewed both of the enormous dirigibles and discussed the contemplated flights with air officials in England.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

#### Hemp Growing in Manitoba

Hemp growing is gradually assuming promising proportions in Western Canada. Double the acreage of 1927 has been devoted to hemp growing at Portage la Prairie, and the yield is very good. The Manitoba Cordage Company Limited reports an increasing demand for its products.

#### Check Colds with Minard's Liniment.

#### Milk For Dairy Factories

The approximate amount of milk required to supply dairy factories in Canada during 1926, based on the quantity of milk delivered and the equivalent in milk of the butter fat content of the cream delivered, was 7,118,940,782 pounds.

# ASPIRIN

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

## TEST MILLING AND BAKING VALUES OF 1928 WHEAT

Regina.—Milling values of the various grades of 1928 wheat and the possibility of introducing the protein test into the grading system were discussed at the annual delegates' meeting of the Saskatchewan Wheat Pool, when Dr. F. J. Birchard, chemist in charge of the Board of Grain Commissioners' grain research laboratory, attended with an exhibit of bread baked from standards and averages of the various grades of wheat from the 1928 crop.

Dr. Birchard based his introductory comment on the report which was issued from his laboratory some time ago in which it was stated that the lower grades of wheat from the 1928 crop, most of which are heavily damaged by frost so far as physical appearance goes, are appreciably better in quality than similar grades of the 1927 crop. He read to the delegates the comment accompanying the milling and baking data in his report and was then subjected to frequent questioning.

Dr. Birchard, in his statements believed that, generally speaking, frost had the effect of deteriorating the quality of the protein in wheat but that this was not the case this year to the same extent as usual, owing to the fact that the frost came at a time when the grain was fairly mature.

In answer to a question as to whether results from an experimental mill should be considered as fairly comparable with those to be expected from a commercial mill, Dr. Birchard answered "Absolutely, otherwise why do all commercial mills maintain chemical laboratories?"

Asked as to whether the mills use No. 6 wheat for the manufacture of flour, Dr. Birchard answered that they had, and said that from his experience he would say that they were using as high as 100 per cent. of No. 6. He showed however that there was a gradual decrease in the percentage of patent flour between One Northern and Six wheat, the actual percentages in his tests having been 63.4 per cent. for the One Northern, and 60.2 per cent. from the Six wheat. The weight per bushel likewise decreased gradually from 64 pounds per bushel in the case of One Northern to 61 pounds in the case of No. 6 wheat.

## Believes U.S. Election Verdict For Prohibition

May Mean Showdown With Canada Over Liquor Exports, Says Official

Detroit, Mich.—One of the highest prohibition enforcement officers in the United States, sat behind a desk in a large office building here, and summarily expressed his opinion about the future of legalized rum exporting into this country.

"A country that condones and abets the exportation of liquor into a neighboring state where liquor is prohibited cannot honestly command the respect of God or man. Obviously, the presidential verdict can be interpreted also as an overwhelming verdict for prohibition, and a showdown with Canada naturally can be expected," he said.

### Asked To Expedite Treaty

Ottawa.—Recent communication has been received from the British government asking that Canada expedite the reply regarding the replacement of the arbitration treaty between the British Empire and the United States, that expired last June. It is possible such a request may have been forwarded and not yet received here.

### Draws Attention To Claim

Ottawa.—Admitting that he threw a stone through a window of Rideau Hall, the residence of the governor-general, in order to draw attention to his claims for pensions, William H. Coulter was fined \$2 and costs and ordered to pay \$2 for the repair of the window by the magistrate. Coulter said he picked out a small window so the damage would be less.

W. N. U. 1761

## Announce Delegates To Air Conference

Winnipeg Postmaster Will Be Member Of Canadian Party

Ottawa, Ont.—Announcement has been made here that D. J. Desbarats, deputy minister of national defence will head the Canadian delegation which will attend the international conference of civil aeronautics to be held in Washington, D.C., December 12 to 14, inclusive.

Accompanying Mr. Desbarats will be P. T. Coolican, assistant postmaster general, J. A. Wilson, controller of civil aviation; T. T. Bower postmaster at Winnipeg, Man.; and Wing Commanders J. L. Gordon and E. W. Stedman, of the Royal Canadian Air Force. A number of others directly interested in aviation are expected to join the delegation.

Orville Wright, of Dayton, Ohio, has been designated as the guest of honor at the International gathering in recognition of his successful pioneering in aviation, while a number of outstanding figures in the field of aviation are expected from the British Isles.

Wellington, N.Z.—H. R. Dix, representing the New Zealand Aero Clubs, and Captain N. H. Barlow, of the New Zealand Air Force, sailed for Vancouver. They will represent New Zealand at the international aeronautical conference which opens in Washington, December 12.

## Make Preparations For Closing Of Navigation

Ship Owners Asked For Final Sailings On Great Lakes

Ottawa.—In preparation for the close of navigation all ship owners have been requested by the department of marine to advise when their last vessels will leave the head of the Great Lakes. Failing an agreement between United States authorities and owners across the border, the department has been unable to arrange for navigation to close on December 7 as was hoped.

All Canadian lights and fog alarms on Lake Superior will be kept in operation until the close of navigation, with the exception of Caribou Island which may close on December 8, and be replaced by an unwatched flashing gas light; Otter Head, Davileux Island, Quebec Harbor and Michipicoten Island, East End, which may close on December 12, and Ile Parisienne which may close on December 15.

## To Raise Farming Profession

Herman Trelle Thinks Farming Should Be On Level Of Other Professions

Toronto.—"If there is anything I can do in the way of taking the hayseed out of farming, I'm going to do it," Herman Trelle, the world's wheat and oats king, said upon his arrival here to attend the royal winter fair, where he has numerous grain exhibits. "Why shouldn't the farmer be an educated, cultured man, the same as those who follow any other profession?"

In 1926 Mr. Trelle produced 15,500 bushels of entirely registered seed grain, with the whole output placed at the disposal of the Alberta government, which pays him a premium for his product.

He has won championships in virtually every province in Canada and is the holder of 21 cups. Mr. Trelle has won every trophy but one in the Dominion. At the winter fair he is exhibiting wheat, oats and peas, all grown under the same conditions which produced him honors in other years.

## Ready For Grain Probe

Commission Will Hold Sitings In Saskatchewan During December

Regina.—The Royal Grain Commission, appointed by the Saskatchewan Government, will hold sittings in various parts of the province during December, to investigate the system of grading, handling, mixing and marketing wheat.

The commission will consist of Chief Justice Brown, chairman; John A. Stoneman, president of the United Farmers of Canada, Saskatchewan section; Dean Rutherford, of the Saskatchewan College of Agriculture; F. Hedley Auld, deputy minister of agriculture; and H. F. Thomson, K.C., and W. E. Proctor, counsel for the commission.

## NOTED MISSIONARY HONORED

Sir Wilfred Grenfell, noted missionary and doctor of Labrador, who was elected rector of St. Andrew's University, in England, defeating Lord Melchett, the former Sir Alfred Mond, by a majority of 157 votes.

## Empire Goods Are Given Preference

Hoped New Regulations Will Help To Stimulate Production

Ottawa.—Hon. W. D. Euler, Minister of National Revenue, announces that after February 1, goods entering Canada under British preferential rates must be of Empire material and labor. The present percentage of Empire materials and labor now required is 25. The new regulations will, it is hoped, stimulate production within the Empire.

A corresponding provision has been made with regard to imports under the intermediate tariff under special treaties and conventions. Hon. J. A. Robb, in the House last session, intimated that it was proposed to increase from 25 to 50 the percentage of Empire labor and materials required in goods qualifying under British preferential rates.

## Saskatchewan Legislature

Announcement Officially Made That Sessions Will Open Dec. 4

Regina.—Lieut.-Governor Newlands will officially open the fourth session of the Sixth Saskatchewan Legislative Assembly at 3 o'clock Tuesday afternoon, December 4. Premier J. G. Gardiner has officially announced.

The debate on the address in reply to the speech from the throne will open on Thursday, December 6. The honor of launching the debate this year will fall upon Chas. McIntosh, M.L.A. for Kinistino, who will move the address, while Dr. J. T. Waugh, the newly-elected member for the Arm River constituency, will be the seconder in a maiden speech.

### Manitoba Liquor Profits

Winnipeg.—The Manitoba government liquor control commission realized gross profits of \$1,493,706.60 for the fiscal year ending April 30, 1928. The net profits amounted to \$1,345,117.25, according to the public accounts prepared for the provincial government.

## Giant Fokker For West

First Tri-Motored Airplane For Use In Western Service

Winnipeg, Man.—The first tri-motored airplane for use in Winnipeg and the West will be brought here this week by W. L. Brintell, operating manager of the Western Canada Airways, Ltd.

It is a big Fokker machine similar in construction and power to the famous "Southern Cross" which caused world-wide attention when it bridged the Pacific Ocean last year.

The big Fokker has a 72-foot wing spread, two feet longer than the big Ford plane brought to Manitoba for testing purposes by Bernt Balcher, and the late Floyd Bennett, early last spring. It has a capacity for 10 passengers, and if the baggage and express are light, for 15.

In commenting on the mail contract let to the Western Canada Airways by the Dominion government, Mr. Brintell drew attention to the fact that the service will be in operation for the three shortest flying weeks of the year, December 10 to 29. That would shorten the flying hours, but the company, he felt sure could "make the grade" without trouble. A spare Fokker super-universal monoplane would be kept in readiness at Regina in case of mishap to another machine.

Public sentiment and public support would make it possible to carry on the mail service as a regular service, Mr. Brintell said.

## Grain Elevator For Churchill Terminus

Will Have 1,125,000 Bushels Capacity According To Plans

Port Arthur, Ont.—The C. D. Howe Company, of Port Arthur, has been commissioned to prepare plans for a terminal grain elevator of 1,125,000 bushels capacity to be erected at the Churchill terminus of the Hudson Bay Railway.

It was stated at the Howe Company offices that while a start has not yet been made, the proposed elevator is to be after the same general plan as the terminal elevator at Port Arthur and Fort William, with certain possible modifications regarding the facilities for loading ocean vessels.

This will depend upon local conditions relative to exact location of the plant and whether tide water will have to be considered. Information concerning this has yet to be obtained.

It was also stated at the Howe Company offices here that no information had been received concerning plans for a Hudson's Bay elevator for the wheat pool. C. D. Howe is now at the Pacific Coast and may have some correspondence in this connection, but that is considered hardly probable here.

### For Church Union

Edinburgh, Scotland.—The assemblies of the Church of Scotland and the United Free Church of Scotland, both voted by overwhelming majorities in favor of the union of the two churches. Final decision on the question will be made at the next assemblies in May. Both churches are Presbyterian in doctrine.

## HERMAN TRELLE IS WINNER AT TORONTO FAIR

Toronto.—Herman Trelle, of Wembley, Peace River District, was awarded grand championship for hard spring wheat, at the Royal Winter Fair.

Manitoba won first and fifth on Durum wheat. R. Brockington, of Melita, was first, and Alf Wood, Glenboro, fifth, while second place went to William Darnbrough, of Laura, Sask. Samuel Larcombe, of Birtle, won third on early oats with a fine sample of Alaska.

The champion ribbon and silver trophy for the best half bushel of wheat at the show went to Herman Trelle, Wembley, Alta., on a sample of Reward, which adds another victory to his already remarkable winnings, partially won at the International show, Chicago.

Champion half bushel of barley went to W. E. Darnbrough, Laura, Sask., on O.A.C., 21. Championship for oats was won by Wm. Darnbrough, Laura, Sask. The winnings in the classes judged were as follows:

Spring wheat except Durum: First, Herman Trelle, Wembley, Alta.; second, W. E. Darnbrough, Laura, Sask.; third, Wm. Pierce, Birtleman, Sask.; fourth, S. Crossman, Laura; fifth, W. E. Darnbrough, Laura; sixth, F. E. Smith, Swan River, Man.; seventh, Paul Braulieu, St. Flavie, Que.; eighth, J. E. Nixon, Wauchope, Sask.; ninth, J. W. McGhie, Marquis, Sask.; tenth, P. J. Rock, Morris, Alta.; eleventh, Alf Ripley, Indian Head, Sask.; twelfth, P. F. Robbins, Shaunavon, Sask.; thirteenth, Nels Skillestad, Chaukleton. Twelve of the thirteen prizes go to western Canada and there were fifty-seven entries. First for Durum wheat fell to P. Brockington, Melita, Man., with W. E. Darnbrough and Wm. Darnbrough, Laura, Sask., second and third. Fourth went to Brown, of Millbrook, Ont., fifth to Alf Woods, Glenboro, Man., and sixth and seventh to Guelph and Udon, Ont., men. There were ten entries.

There were sixteen entries in early oats with Wesbrough, Millbrook, Ont., first on Alaska; Wm. Darnbrough, Laura, second on Alaska; S. Larcombe, Birtle, third on Alaska; with fourth to McCutcheon, Guelph, and fifth to H. Cabana, St. Cuthbert, Que.

Oats other than early were 58 in number of which William Darnbrough was first, and champion, and Trelle second, on Victory in each case. Third fell to Nels Linden, Wetaskiwin, Alta.; and fourth to J. H. B. Smith, Wolf Creek, Alta.; also on Victory. Fifth went to McCutcheon, Guelph, and sixth to Paul Beaulieu, of Quebec. Hansmeyer, Vegreville, had seventh, Wm. Whitelock, Kelwood, Man.; eighth; S. Larcombe, Birtle, ninth; J. F. Field, Regina, tenth; P. J. Rock, Morris, Alta., eleventh.

## Aviator Has Narrow Escape

French Plane Falls Five Miles But Lands Safely

Villa Couby, France.—The French pilot, Le Moigne, attempting to break the world's altitude record, lost consciousness when his oxygen inhaler failed at 30,000 feet, and fell nearly five miles before regaining his senses approximately 4,000 feet above the ground. He righted his plane and landed safely.

Le Moigne had been in the air one hour and ten minutes when his oxygen failed.

### May Serve On Commission

London.—It is definitely settled that the United States shall be invited to serve on the new reparations commission and also that the commission should draw up a scheme for capitalizing and commercializing Germany's reparations liabilities so that bonds can be sold to private investors.

### Is Still Walking

New Orleans, La.—Eight years ago George Nemeth, 25, left the university he was attending to take a walk because the physicians said that was the only way he could recover his failing health. Last week Nemeth walked in and out of New Orleans on his eighth trip around the world.

## DRIVES LAST SPIKE

R. B. Stewart, founder of the Stewart Valley Settlement, in Saskatchewan, achieved a long standing ambition when he drove the last spike on the Alkinds North branch of the Canadian Pacific Railway recently. Reeve Smith, of Stewart Valley, held the spike, and every member of the community turned out in appreciation of the historic occasion. "Put your hands to the plow and work this railway to its utmost capacity" Mr. Stewart urged, when pointing out the value of the new line to the settlers.

Two heifer calves, 1 Jersey color and 1 red and white. Reward. Finder notify E. Jackson, R1905, Didsbury. 48

### Mountain View Notes

The November and December meetings of the Mountain View W. I. were held as one at the home of Mrs. M. E. Wood on November 22. Twenty members and a number of visitors were present.

It was decided to hold the annual Christmas tree at Community Hall on Friday, Dec. 21st.

The W.I. are planning a busy time next year with a Baby Clinic, a one day lecture on infectious diseases, and a three day short course in sewing.

Those who attended the ten meetings of the year are: Mrs. Ed. Barnes, Mrs. Ed. Blain, Mrs. Garnet Tighe, Mrs. Coates, and Mrs. Wood. As a reward to these members the W.I. paid their dues for 1929.

A bank book was presented to Imm's baby.

The Provincial fund from this W.I. will be \$24, but as the W.I.'s are by themselves now, it was voted to send \$30.

January meeting will be held at the home of Mrs. Harold Tighe. Roll call answered with one's favorite remedies.

The officers for 1929 are the same as this year.

There will be a dance in Community Hall on Friday, December 7th. Clemens and Bellamy 4-piece orchestra.

In farm papers the Family Herald and Weekly Star, Montreal, leads them all. One dollar a year or three years for \$2, and with it a superb magazine free.

### Rosebud Hockey League Formed (Continued from Page 1)

bate, during which all angles were discussed. The delegates enacted a resolution to use the A.A.H.A. rules for the season with the single exception of the residence rule, which was made December 1st.

The delegates, in adopting the A.A.H.A. rules, have simplified their problem by using a code of regulations that are common to the whole province. These rules cover all disputes and greatly simplify the work of referees as a copy of the regulations will be found wherever they may be playing.

The league this year will likely consist of six teams, Innisfail, Bowden, Olds, Olds School of Agriculture, Didsbury and Carstairs, which should make competition very keen.

If Didsbury and district will give the local boys strong support they should be well up in hockey honors this year, as a strong team is being lined up.

## Buy Coal-Now!
